Introduction

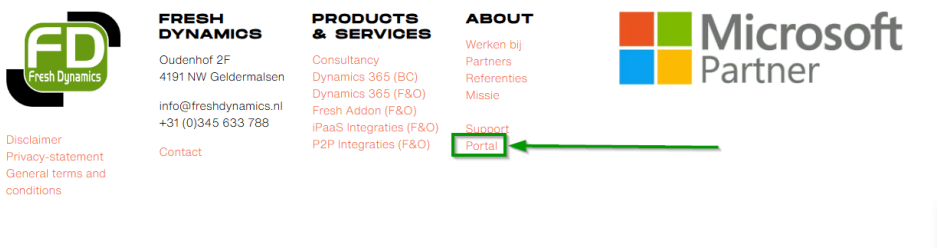
This manual allows software products from Fresh Dynamics to be downloaded. You always need a personal account and password, received from Fresh Dynamics.

Access to this software portal is extra secured with a two-factor authentication. An app will have to be downloaded for this.

 © Fresh Dynamics

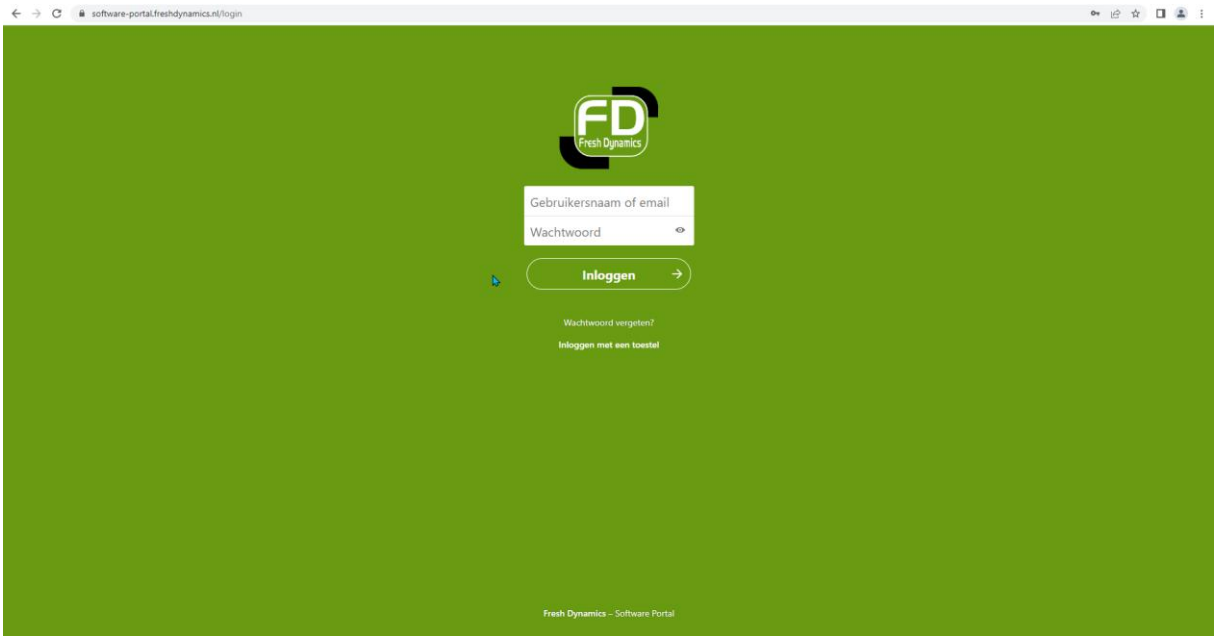
0. First download TOTP app via Play Store or do this in step 4.

1. Go to the Fresh Dynamics website www.freshdynamics.nl

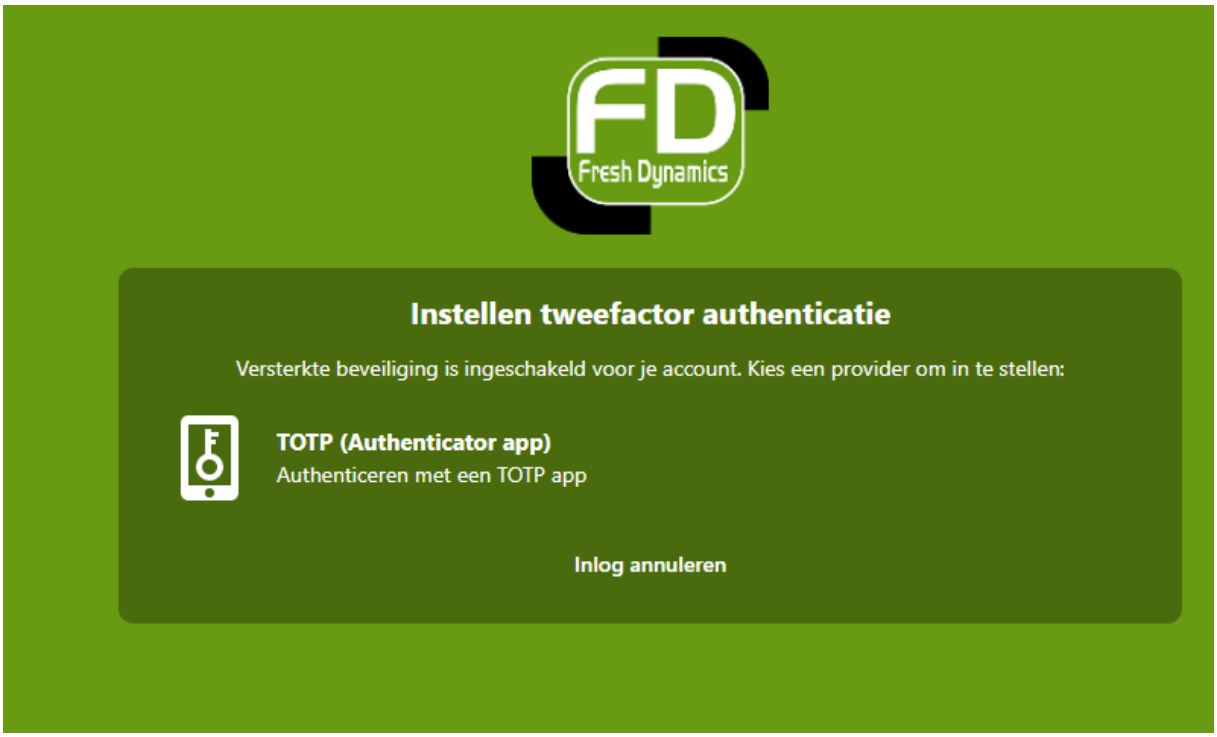


Click on the Portal-button:

Now you'll see the software-portal screen.



2. Fill in the account and password which you received from Fresh Dynamics.



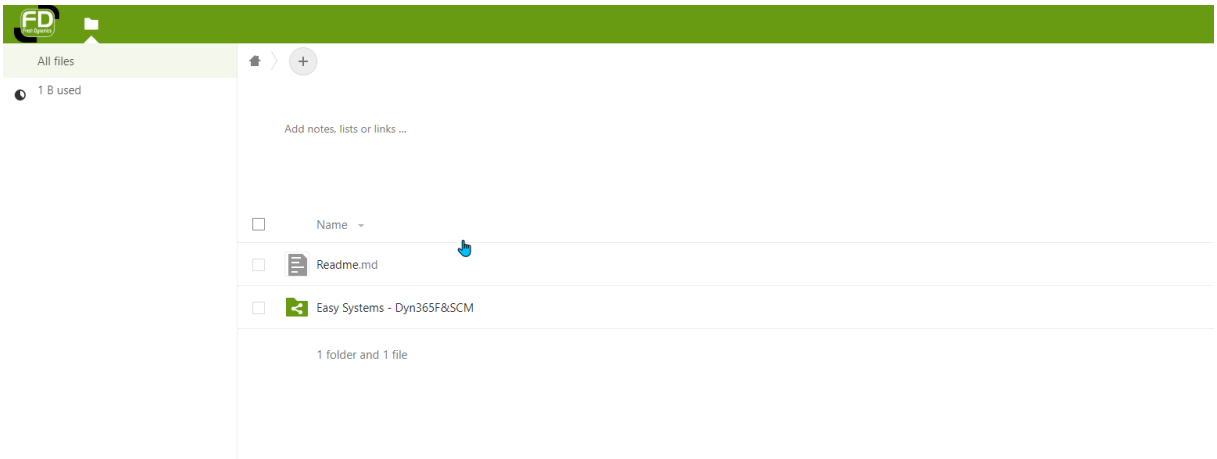
3. Click on this TOTP
4. Download TOTP app via Play Store (if it is not downloaded in step 0)
5. Scan QR Code and enter the code.

 © Fresh Dynamics

6. Choose TOTP etc…
7. Fill in the verificationcode

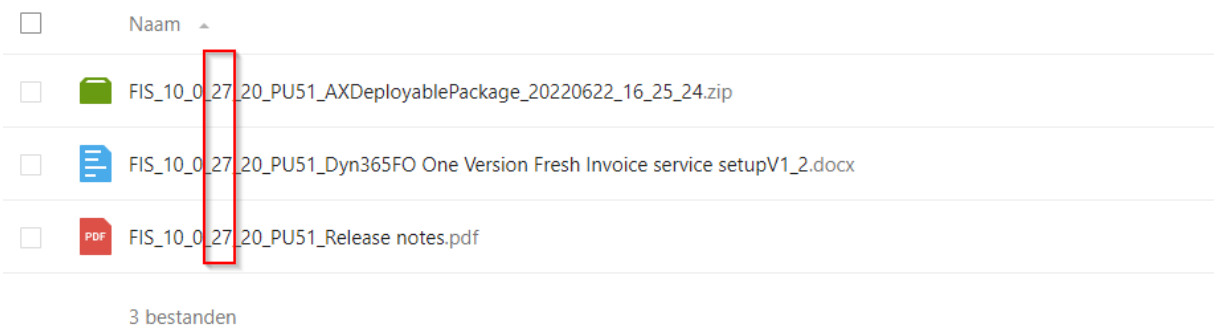
Now you are in the softwareportal of Fresh Dynamics.

The folder below is visible (Notice!! there might be also another foldername if your company uses another connector)



Click on this folder

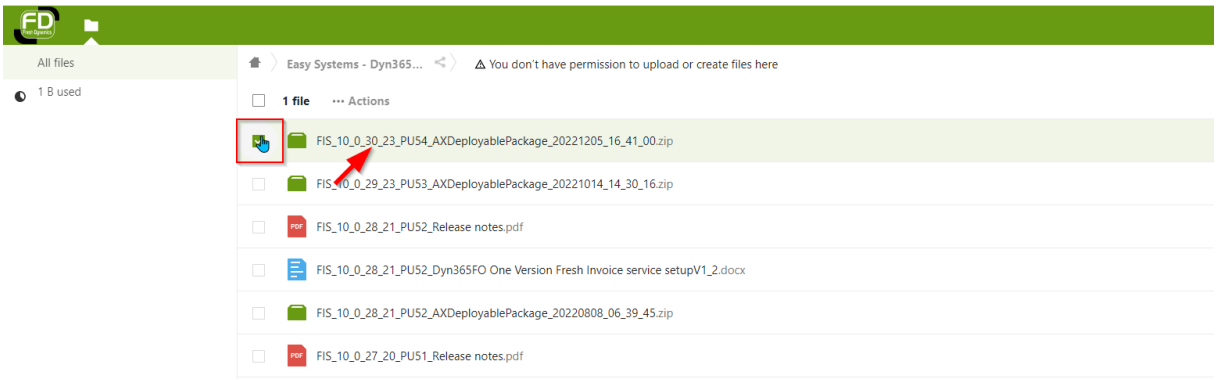
Files belonging to a version can be recognized (Notice!! The productnames might differ if your company uses another connector):



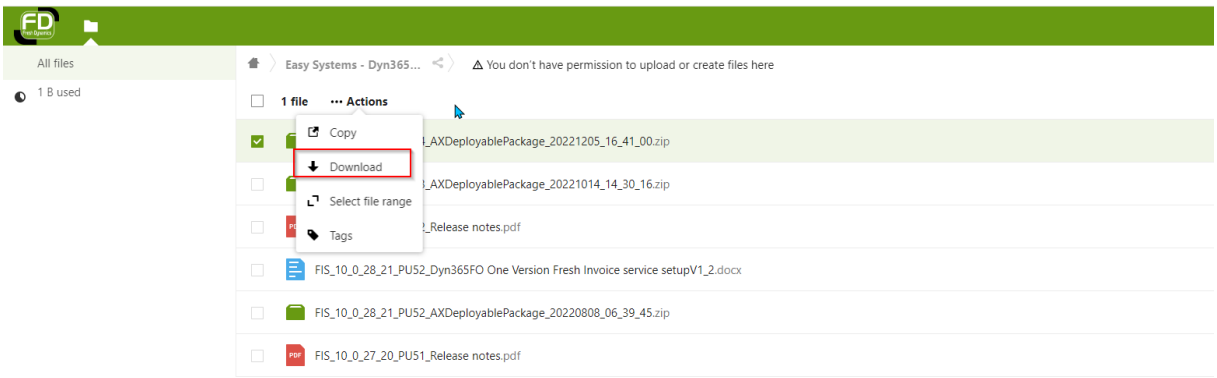
Zip-file is the Deployable Package

Docx – file is the user manual belonging to this version – no changes have been made in its absence

Pdf file are the changes compared to. the previous version – in its absence there have been no code changes.



Pls. select the file with the right version which you would like to download.



After choosing download the file will be downloaded.

Now the Deployable Package can be installed in the Microsoft Dynamics365F&SCM environment like you are used to install this.
